

WAT PROJECT SUMMER 2023: DATING SITE

Roles	Stories	Priority	In Order To	Acceptance Criteria	Generally understood terms (for the sake of avoiding redundancy)
User	User sign up	1	Create a new account	<div>1. An easy to navigate sign up screen. Everything is going to be in the middle of screen, easy access, and clear colour coding.</div> <div>2. Asks for user information with text input boxes. Information will be name, surname, password, e-mail.<div><div>a. E-mail must contain @ and be a valid address.</div><div>b. Password must contain at least lower-case letter, one capital letter and number.</div><div>c. Name and Surname boxes are close to another.</div></div></div> <div>3. All inputs are required and marked with *</div> <div>4. Motivation pops up.<div><div>a. If successful with a text box which is like this "Change of password is successful".</div><div>b. If not successful or an error occurs somewhere there should be notice "Error occurred during password change"</div></div></div> <div>5. User directed to partner configuration settings (initialization, separate story)</div>	<div>swiping/ browsing / dating users by buttons, not necessarily the swiping motion on a mobile screen</div> <div>mutuals- mutually liked profiles</div> <div>the interface has to be dynamic, interactive and user friendly, buttons are prioritized</div> <div>the interface is prioritizing web chrome desktop on windows, should be functional on other browsers and os platforms.</div> <div>the browsing, chatting features are only for logged in users</div> <div>ABOUT TABLE COLOR CODING: some stories are not entirely "independent" and are not entirely so dependent to have their own section, hence to avoid confusion stories have substories and sections that are interlinked. Not every row entry should be considered a fully independent story. Generally same color directly touching same subject are such.</div>
User	Partner configuration	2	Configure preference settings for partners	<div>1. During Account Creation initialization. Can be changed later from account settings. (Same protocol, different story not necessary.)</div> <div>2. Slider where maximum and minimum age range can be set.</div> <div>3. Gender of partner preference can be changed, Gender options are F, M, O</div> <div>4. User directed to initialization of profile if first time account creation process. If accessed via user preference setting then redirected to own profile page or back to account settings.</div>	<div>Main website areas:</div> <div>Main About and contact pages. Accessable without login</div> <div>Browsing profile page.</div> <div>Chat section.</div> <div>Profile Page. (includes profile configuration as a subgroup) (also refers to users own profile and others profile)</div> <div>User settings. (includes subsections)</div> <div>Admin panel.</div>
User	Profile Set up	1	Initialize and view personal profile	<div>1. During Account Creation initialization.</div> <div>2. Can be changed later by configuring profile. (Separate story)</div> <div>3. Input form where information will be asked during initialization.</div> <div>4. User can set photos, bio, date of birth and own gender.</div> <div>5. User gender options are F, M, O</div> <div>6. Bio can be up to 500 characters. Can include emojis.</div> <div>7. Up to 5 photos can be uploaded.</div> <div>8. Bio, Photos are optional.</div> <div>9. Date of birth and Gender is mandatory, marked with *</div> <div>10. Submit button is present, after clicking which initialized/updated profile page will be created.</div> <div>11. User is redirected to initialized/updated profile page</div>	<div>Team Members:</div> <div>Pierre Rheeder</div> <div>Berkay Doruk</div> <div>Oguzhan Ozdil</div> <div>Apoorva Singh</div>
User	Profile page	2	modify and view personal profile	<div>1. Profile page will have a button to modify/edit page.</div> <div>2. When clicked will redirect to configure profile page form.</div> <div>3. User can set photos, bio, date of birth and own gender.</div> <div>4. User gender options are F, M, O</div> <div>5. Bio can be up to 500 characters. Can include emojis.</div> <div>6. Up to 5 photos can be uploaded.</div> <div>7. Bio, Photos are optional.</div> <div>8. Date of birth and Gender is mandatory, marked with *</div> <div>9. Submit button is present, after clicking which initialized/updated profile page will be created.</div> <div>10. User is redirected to initialized/updated profile page</div>	
User	Tag Hobbies and Interests (in profile)	2	set own tags for hobbies and interests. (initialization)	<div>1. During Account Creation initialization.</div> <div>2. Can be changed later, by going to profile page tag section and clicking on modify/edit button.</div> <div>3. A list of supported hobby/interests tags is displayed.</div> <div>4. The user is asked to select up to 5 tags.</div> <div>5. Selecting tags is optional. (A tag will only help in user profile matching during browsing.)</div> <div>6. Submit button is present, after clicking which initialized/updated tags will be added to profile.</div> <div>7. User is redirected to initialized/updated profile page.</div>	
User	Modify tags (in profile)	2	change hobbies and interests tags	<div>1. On profile page tag section, list of current hobby/interests tags is displayed.</div> <div>2. Click on modify/edit button.</div> <div>3. The user is asked to select up to 5 tags.</div> <div>4. Selecting tags is optional. (A tag will only help in user profile matching during browsing.)</div> <div>5. Submit button is present, after clicking which initialized/updated tags will be added to profile.</div> <div>6.
